

**Assistant/Associate/Full Professor
Pediatric and Perinatal Epidemiology
Department of Epidemiology and Population Health
Albert Einstein College of Medicine**

Applications are invited for a full-time Assistant/Associate/Full Professor in pediatric and perinatal epidemiology in the Department of Epidemiology and Population Health (DEPH) and the Department of Pediatrics at the Albert Einstein College of Medicine, a leading research institution with a strong commitment to excellence in research. The DEPH is well recognized for its multi-disciplinary programs in epidemiologic, prevention, and health services research and is currently undergoing considerable expansion of its faculty base, and the Department of Pediatrics cares for one of the largest pediatric populations in the country and has a robust basic, translational, and clinical research portfolio. The position will provide opportunities for diverse research collaborations in a highly collegial environment and for teaching medical and graduate students.

The epidemiologist who occupies this position will take the lead in developing a major research program in pediatric and perinatal epidemiology, including an envisaged longitudinal study of the children of the Bronx that will be able to leverage the electronic medical record system used by the Department of Pediatrics. An attractive start-up package will be provided for this purpose, including support for additional faculty positions and multiple research support staff.

The successful candidate will have either a PhD in epidemiology or an MD with advanced training in epidemiology, particularly in areas of neonatal, pediatric and/or adolescent epidemiology supported through peer-reviewed funding. Rank will be commensurate with experience.

Interested candidates should submit a cover letter describing their research and teaching experience and listing three referees, together with their curriculum vitae, to:

Tom Rohan, M.D., Ph.D. (Ref: AECOM-PE)
Chairman
Department of Epidemiology and Population Health
Albert Einstein College of Medicine
Jack & Pearl Resnick Campus
1300 Morris Park Avenue
Bronx, New York 10461
